John Schwartz
Green Mountain Fuel
19301, S. Santa Fe Ave.
Suite #116
Compton, CA 90221

To whom it may concern:

Barnard Construction has used Green Mountain fuel as our fuel and oil supplier on the Barren Ridge Project. They have been provided Gas, diesel, oil and DEF to keep our fleet of about 50 pickups and 40 pieces of equipment moving. They have provided flexible service in meeting our constantly changing demands for the 60 mile project. John has been more than helpful and very responsive to our questions and ever changing needs.

Regards,

Alex Raby
Project Engineer
